- 33 1/3 and 45 RPM
- Line-level RCA output (with integrated preamp)
- PC and Mac compatible

AUDACITY SYSTEM REQUIREMENTS

- PC running Windows XP or Vista
- Mac running OS9 or higher
- One available USB1.1 port or newer

DIGITIZE YOUR VINYL COLLECTION

The ION TTUSB05 is the perfect turntable for archiving and digitizing your vinyl music collection. USB connectivity simplifies conversion directly into your computer and with the included software for recording your music, you can now listen to your favorite music on CDs or portable media players. The ION TTUSB05 even features a standard, RCA line output for connecting to your home stereo or home theater system with no hassles.

EZ Vinyl Converter (PC) and *EZ Audio Converter* (Mac) are included free with the TTUSB05 and provide the easiest way to convert your records to your computer's digital music library. Plug in your TTUSB05 turntable, enter track information and in a few mouse clicks you're done! The software automatically imports your songs directly into your iTunes library.

Included *Audacity* software helps remove clicks, pops and other noises from your recordings to restore the full quality of your vinyl. It even converts 78 RPM records.
